CPE432: Computer Architecture and Organization (2)

Course Introduction

Prof. Gheith Abandah

أ.د. غيث علي عبندة

Outline

- Course Information
- Video: Advanced CPU Designs
- Textbook and References
- Course Objectives and Outcomes
- Course Topics
- Policies
- Grading
- Important Dates

Course Information

- Instructor: **Prof. Gheith Abandah**
- Email: **abandah@ju.edu.jo**
- Office: **CPE 406**
- Home page: **http://www.abandah.com/gheith**
- MS Teams: **Link**
- Prerequisites: **CPE 335: Computer Architecture and Organization (1)**
- Office hours: **Sun – Thu: 13:00 – 14:00**

Advanced CPU Designs

Course Objectives

- Introduce students to the technological changes in designing and building processors and computers.

- Introduce students to the advanced techniques used in modern processors including pipelining, branch prediction, dynamic and speculative execution, multiple issue, and software optimizations.

- Introduce the students to the basic concepts and technologies used in designing memory and storage systems including cache, main memory, virtual memory, and secondary memory.

Course Outcomes

- Understand and analyze the performance of single-processor architectures [1].

- Understand and analyze the performance of memory hierarchy levels [1].

- Understand the technological improvements and the effect of these improvements on modern computers [4].

- Survey research papers that describe contemporary issues in computer design [3, 4, 7].

Course Topics

- Introduction
- Computer Technology and Performance (1.2, 1.5, 1.7-1.11)
- Processor: Instruction-Level Parallelism (4.6–4.12, 4.15–4.16)

Midterm Exam

- Selected Topics from Parallel Processors (6.3 and 6.4)
- Memory Hierarchy (5.1–5.11, 5.13, 5.16–5.17)

Final Exam

Policies

- Attendance is required
- Be ready to participate in solving class problems
- All submitted work must be yours
- Cheating will not be tolerated
- Open-book exams
- Check department announcements at: http://www.facebook.com/pages/Computer-Engineering-Department/369639656466107

Grading

- Two Quizzes   10%
- Technology Trends Research Project   10%
- Midterm Exam   30%
- Final Exam   50%

Important Dates

Mon 9 Oct 2023	First Lecture
26 Nov -7 Dec 2023	Midterm Exam Period
Mon 8 Jan 2024	Project Report Due
Mon 15 Jan 2024	Last Lecture
Tue 16 Jan 2024	Last Date to Withdraw
17-29 Jan 2024	Final Exam Period
